Career Summary

Tatum by Randstad

8/2022 - present

Business Analyst (Consultant)

Report to CFO in Finance Department at a biotech company. Create and automate financial data reports using VBA in MS-Excel and MS-Access.

Universal Display Corporation - Ewing, NJ

2/2007 - 4/2022

Business Analyst/Software Developer/Consultant

Universal Display Corporation develops state-of-the-art, organic light emitting diode (OLED) technologies. Its chemical products are used in cell phone displays, television screens and other lighting products.

Key Responsibilities and Accomplishments:

- Partnered with internal stakeholders, technical team members and vendor consultants to review user stories and create requirements documentation, deliverables and progress tracking
- Prioritized and planned activities based on deadlines, resources and other factors
- Operated independently, as needed, to take on additional responsibilities to keep projects on-time and on-budget
- Successfully managed eQMS/EHS cloud system implementation (ETQ Reliance) while dealing with changing deadlines and scope, and an unexpected immediate work-from-home requirement due to the pandemic
- Facilitated regular meetings to review project status and adjust project plans as needed
- Released incremental software enhancements and bug fixes on a regular basis
- Collaborated with users to develop accurate test case documentation and assign testing to get stakeholder approval in UAT before deployment to Production systems
- Authored easy-to-understand technical, user and training documentation, including release notes
- Planned and led user training sessions on software implementations and changes
- Rectified user issues in person and virtually (Zoom/Teams), and documented in helpdesk systems
- Analyzed and developed data and user group permissions (Active Directory/SQL Server)
- Successfully created and supported the first versions of UDC's Quality, R&D and Sales production systems
- Competently established UDC's data warehouse
- Independently developed smart tools to provide users with efficient and secure data access, as well as reports in Excel and other formats

Alexis Brownstein resume (continued)

Universal Display Corporation – Key Responsibilities and Accomplishments (continued)

- Cleverly constructed tools/reports, and customized logic for purchased software, such as ETQ Reliance, saving hundreds of thousands of dollars in outside consulting fees and accelerating the release timelines
- Expertly managed, maintained and supported 12+ live systems concurrently with no major downtime
- Successfully developed and managed upgrade to Office 365 of major data tool shared by 40+ users
- Capably worked with users in all functional areas to develop complex but user-friendly systems to manage company data, saving users countless hours in the performance of their duties

Career Summary Continued

Dr. Database, LLC – Mount Laurel, NJ

07/2004 - 06/2011

Owner / Consultant

- Diligently managed the business while personally handling over 25 clients of all sizes
- Successfully created large MS-Access multi-user databases used by clients to run their businesses
- Generated company website projects with easy-to-use interfaces for clients to manage their data with a content management tool
- Created programs to load old data into the new systems
- Hired consultants to help with large projects and managed their work
- Competently resolved technical support issues
- Collaborated with clients to create useful, efficient custom systems to meet their needs

Subaru of America – Cherry Hill, NJ

11/2001 - 10/2004

HRIS Analyst

- Utilized VBA to create Access databases to track many HR processes
- Successfully created systems for other functional areas of the company, such as customer sales
- Created numerous complex reports to improve Management access to data for decision-making
- Competently developed data conversion programs in VBA and SQL to transfer old data to new systems
- Creatively enhanced existing systems to improve the user experience and reduce time spent on job duties
